

DOORS AND ACCESSORIES

Access, security, and acoustical privacy all start and end with the doors in your space. SYMBIO offers a full spectrum of door and hardware options to meet your requirements.

+ DOOR TYPES

SYMBIO doors and accessories are essential for any commercial space. They provide security, functionality, and style. However, choosing the right doors and accessories can be complex. There are many factors to consider, such as the size and layout of your space, the type of traffic it will receive, and your budget. That's where our team comes in. We can help you navigate the complexities of doors and hardware and choose the perfect solution for your needs.

Frameless Glass

A modern and clean look that will complete any design vision.

- Available in sliding, patch hinge, patch pivot, and telescopic configurations
- Available with 1/2" tempered glass
- Multiple mount options:
 - Center patch pivot
 - Offset patch pivot
 - 4" tapered bottom rail with pivot

Aluminum Glass

Security, durability and beauty all in a single flexible frame design.

- Available in sliding, hinge, offset pivot, bi-fold and telescopic configurations
- There are multiple frame design options available:
 - Thin, medium and wide stiles
 - ADA compliant 10" bottom rails
 - Supports 1/4", 3/8" and 1/2" glass lites
- Supports any available door hardware suited for 1 3/4" hollow aluminum doors

Flush Wood

Wood doors are a great way to add warmth and privacy to your interior space.

- Available in sliding, hinge, offset pivot, bi-fold and telescopic configurations
- Solid or with glass view lites (1/4", 3/8" or 1/2" glass available)
- Finishes available:
 - Veneer (custom matches available)
 - Paint
 - Laminate
 - Unfinished
- Supports any available door hardware suited for 1 3/4" wood doors

+ DOOR FUNCTIONS

Swing Doors

Swing doors are a classic choice for any space. They are available in a variety of styles and materials to match any vision, and they can be used in a variety of applications. Swing doors are optimal for acoustically sensitive spaces.

- Can be used for aluminum, wood and frameless doors
- Both single and double configurations are available
- Soft opening and closing options are on hand
- Jamb posts with acoustic seals are available
- Suited for leading and trailing acoustical seals

Sliding Doors

Sliding doors are a great way to add both style and function to your space. They are a popular choice for their sleek, modern look and their ability to save space.

Bi-Parting (Telescopic)

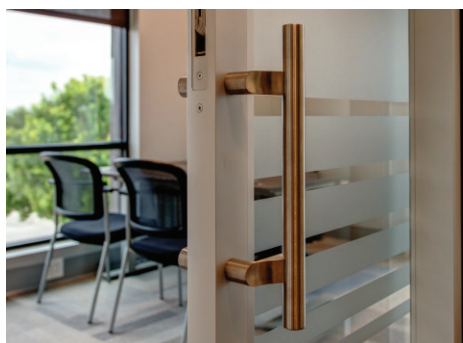

Bi-parting and telescoping doors consist of multiple panels that slide into each other when opened. This allows for a larger opening than a traditional sliding door, making them ideal for spaces where you need to maximize the amount of space available

- Can be used for aluminum, wood and frameless doors
- Single and double configurations are available
- A maximum of 2 operating leafs in each direction and 1 fixed lite is necessary when implementing a telescopic door.

+ ACCESSORIES

Accessories and door hardware are imperative for proper fit and function with any interior project.

Door Pulls

The perfect compliment to any door type, architectural door pulls come in an array of functions and styles. Mounting options include 'through the door' and 'on the glass'.

- Ladder pull (18" and up)
- Locking ladder pull (locking up or down)
- ADA staggered pull (bottom rail clearance)
- Multiple finishes available)

Locking Hardware

SYMBIO's doors are designed to work with all major commercial hardware manufacturers to allow for significant flexibility in design choices.

- Cylindrical locksets
- Mortise locksets
- Glass patch locksets
- Electric strike
- Maglocks

Swing Door Hardware

Framed mounted offset or conventional center pivot hardware can be configured with all SYMBIO door options.

- Butt hinge
- Center pivot patch
- Center pivot rail
- Electrified hinge

+ ACCESSORIES

Accessories and door hardware are imperative for proper fit and function with any interior project.

Door Closers

Integrated closers with standard center pivot and offset swinging functions allow for a smooth client operation for doors of all styles and sizes

- Concealed closers
- Surface mounted closers
- Glass patch closers
- Glass rail patch closers
- Butt mortise hinge closer

Access

With random key to card reader access, we are able to meet the specification and desired level of access for all your door security requirements.

- Random keyed
- Master keyed
- Card reader
- Biometric reader

Miscellaneous

Odds and ends that help complete the total package of door integration within the SYMBIO family of products.

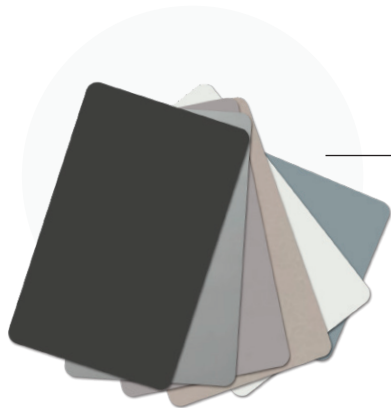

- Room schedulers
- Roller latches
- Barn door hardware
