

FRAMED WALLS

SYMBIO Framed Walls provide value, performance, and versatility to meet the needs of today's interior office environments. The thoughtfully designed framework allows significant flexibility in design, materiality, and other options for custom applications.

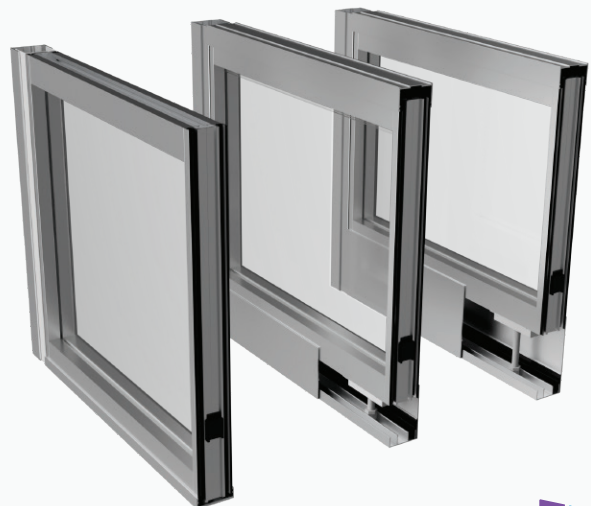

+ SYSTEM ATTRIBUTES

Framed panels are intentionally designed to offer great design flexibility, a range of functionality, and increase overall performance. Every option has been carefully designed to provide maximum value. Our single glazed panels offer a clean and efficient way to introduce glass into your space. Combine them with our solid or multi-lite panels, and you can let your imagination drive your vision to create the office interior of your dreams.

- Factory assembled panels shipped and ready for installation.
- Basic panel frame dimensions:
 - 2-1/4" deep
 - 5/8" vertical framing components
 - 1" and 2" horizontal framing components
- System height ranges up to 12' in 1/2" increments.
- Panel widths range from 6" to 52" in 1/16" increments.
- Native adjustability accommodates a range of +/- 3/4" with the ability to include an add-on component to increase the height by 1" for extreme situations.

- Base height options - 0", 4" and 6".
- Typical connection is through resting on top of the carpet and attaching to the grid ceiling or soffit - freestanding is also supported.
- Electrical, data, and audio/visual integration capable.
- Acoustical performance ranging from 31 to 49 STC depending on their configuration.

+ FRAMED PANEL - DESIGN OPTIONS

The panel design options include infills that are thoughtfully designed to be mixed and matched in any order to bring your vision to life!

Inserts

These are tiles that are mounted flush to the frame, exposing the full panel frame.

FUNCTIONS AVAILABLE:

- Hard surface (no VOC MDF)
- Tackable
- Back painted glass

FINISHES AVAILABLE:

- Fabric
- Vinyl
- Plastic laminate
- Back painted glass

Outserts

These are tiles that are designed specifically to cover the framing components.

FUNCTIONS AVAILABLE:

- Hard surface (no VOC MDF)
- Tackable
- Back painted glass

FINISHES AVAILABLE:

- Fabric
- Vinyl
- Plastic laminate
- Back painted glass

Center Glazed

These are tiles that are mounted in the center of the panel frame.

FUNCTIONS AVAILABLE:

- They have support for 1/4", 3/8" or 1/2" glazing or other substrates
